

# PECB

## **PECB CERTIFIED ISO/IEC 27032** LEAD CYBERSECURITY MANAGER

**MASTERING THE FUNDAMENTAL PRINCIPLES, CONCEPTS, APPROACHES, STANDARDS, METHODS, AND TECHNIQUES TO SET UP AND EFFECTIVELY MANAGE A CYBERSECURITY PROGRAM WITHIN AN ORGANIZATION BASED ON ISO/IEC 27032.**

### **SUMMARY**

This five day intensive course enables the participants to develop the knowledge and competence needed to support an organization in implementing and managing a Cybersecurity program based on ISO/IEC 27032. This training will enable participants to have an overview of Cybersecurity, to understand the relationship between Cybersecurity and other types of security, and stakeholders' role in Cybersecurity. This course can be used as guidance for addressing common Cybersecurity issues, and presents a framework that enables stakeholders to collaborate on resolving Cybersecurity issues.

## WHO SHOULD ATTEND?

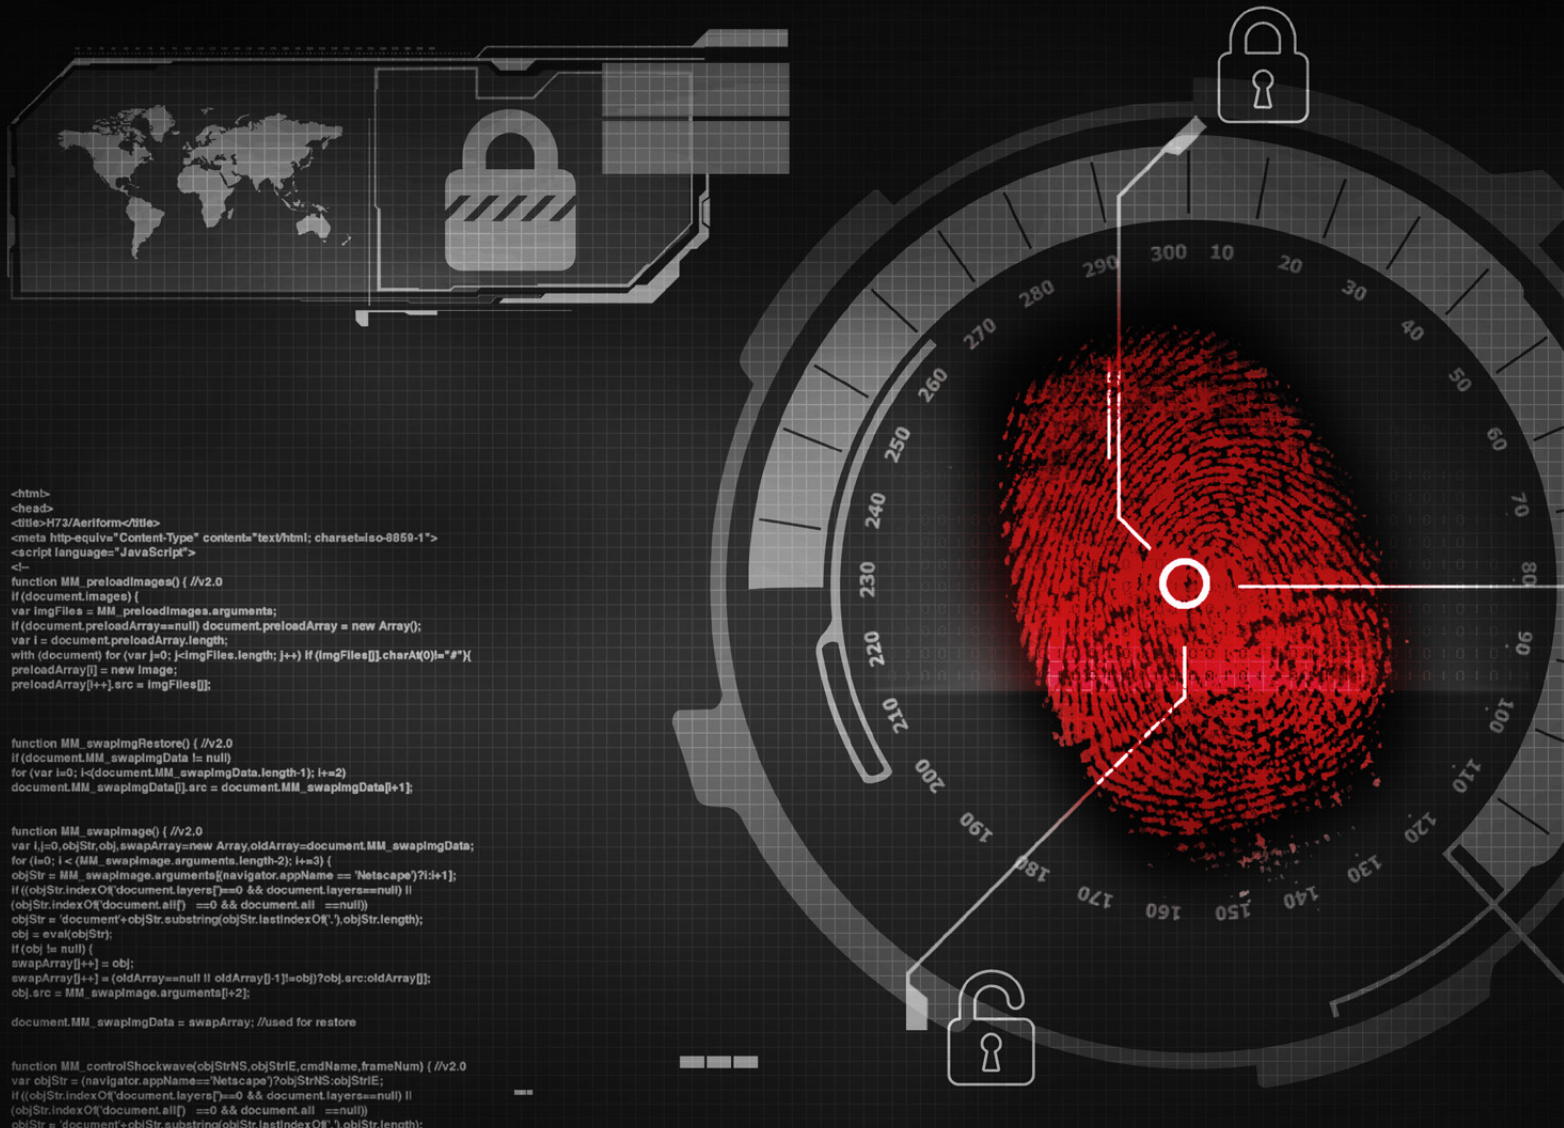

- ▶ Cybersecurity professionals
- ▶ Information security experts
- ▶ Project managers wanting to manage the Cybersecurity program
- ▶ Technical experts wanting to prepare themselves for Cybersecurity functions
- ▶ Persons responsible to develop the Cybersecurity program
